

Welcome to Schooltas!

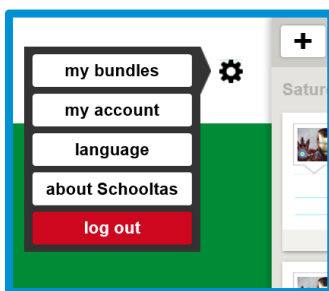

In this guide you'll find a few basic instructions to get started with Schooltas. Personalize your books in less than two minutes!

Create your account

Follow these simple steps to create a Schooltas account:

1. Download Schooltas from the Windows store (free)
2. Enter your name, last name and email address
3. Check your email for your password
4. Sign in with your email address and password

Add books

Once you've created your account, you'll want to add books. To use books, add the bundle code:

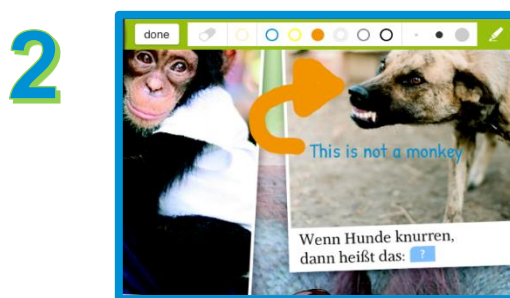

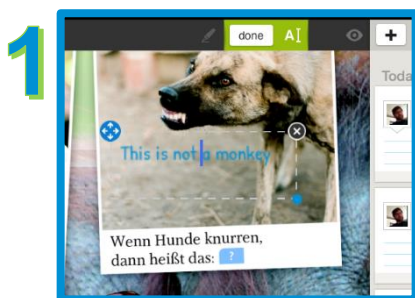

sch00lts

You can add the bundle in the menu *my bundles*. You can find the menu under the settings icon.

Edit your books

Open your book list by tapping on the course list on the left. Tap a book once to download the book. Tap the book again to open it. You can edit your books in two ways:

- 1: use the text tool to write on your book
- 2: use the drawing tool to draw on your book

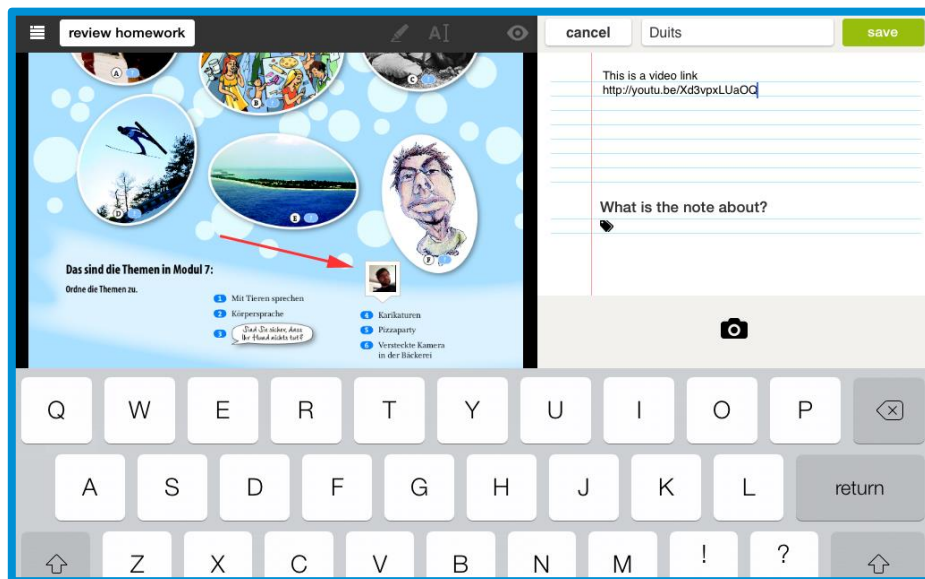

Getting started with Schooltas

Add pins

Besides text editing and drawing, you can add personal pins to your books. With pins, you can add personal notes, photos and video links to your book. To add a pin, simply long press on a page in your book. A pin will appear and your notebook and keyboard will pop open. Save the changes to finish your pin!

Share your pins

Why keep your pins to yourself? In Schooltas you can share your added content with other users. In turn, they can rate your content by 'liking' your pins. Start sharing!
